Level 3 Communications

Award winning Data Centre and Network Infrastructure

World Class Internet

Arrow ECS have teamed up with the award winning data centre infrastructure provider, SOURCE to deliver world-class Colocation and Internet Services for the Channel.

SOURCE is Level 3 Communications' Master Reseller enabling Arrow ECS resellers access to Tier 1 Internet services from 1Mbps to 10Gbps.

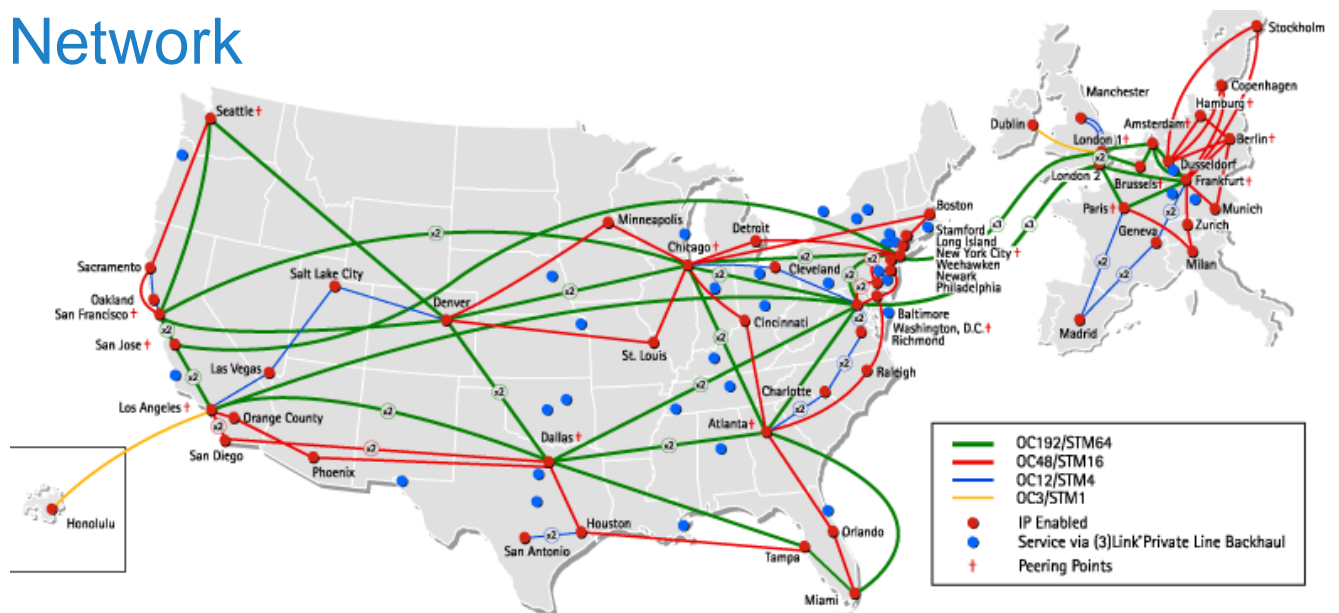

Level 3 Communications are arguably the World's largest Tier 1 network provider, meaning they own the fibre assets on which services are delivered.

Handling over 60% of the World's Internet traffic, SOURCE provide direct peer solutions for data centre and leased line Customers alike.

Additional services, such as DDOS mitigation, BGP Peering and Content Distribution Networks deliver one of the most comprehensive Internet experiences available.

Service details

We understand the Internet experience you provide your customers is vital—and it's only as good as the underlying network's quality.

That's why SOURCE's Internet services are built on the Level 3® High Speed IP (HSIP) network to ensure speed, reliability and scalability.

Our Tier 1 HSIP service provides access to one of the largest and most connected IP backbones across North America, Latin America, Europe and Asia.

This service includes sophisticated network security, a comprehensive range of port interface speeds, online performance reports, and service management capabilities.

By combining our ability to scale, our extensive network reach, and the reliability of our resilient network, our customers receive a quality IP service with superior performance.

Access Options

- Cross Connects: IP enabled facilities are only a cross connect away from our IP Backbone
- Backhaul Options: Multiple backhaul options to extend the reach of our IP network to your customer premise

Port Interfaces

- Ethernet: Fast Ethernet, Gigabit Ethernet and 10 Gigabit
- TDM/Sonet—DS-3, OC-3, OC-12, OC-48
- Full and fractional port speeds
- BILLING OPTIONS
- Fixed Rate Ports: Flat-rate MRC for the port, no additional usage charges to help you manage your budget.
- Usage-Based Billing: Flat-rate MRC for Committed Data Rate (CDR) plus burst charges based on usage above CDR. You can burst to full line rate of interface.
