

# Environmental Policy

SourceSmart<sup>TM</sup> Efficient, Connected Data Centres

Source Managed Services Limited (SOURCE) is committed to reducing the impact of its activities on the environment. In every aspect our impact should be the absolute minimum.

The key points of its strategy to achieve this are for both SOURCE and its key Suppliers:

- Minimise waste by evaluating operations and ensuring they are as efficient as possible.
- Minimise toxic emissions through the selection and use of its machinery and the source of its power requirement.
- Actively promote recycling both internally and amongst its customers and suppliers.
- Avoid unnecessary use of hazardous materials and products, seek substitutions when feasible, and take all reasonable steps to protect human health and the environment when such materials must be used, stored and disposed of responsibly.
- Purchase and use environmentally responsible products,
- Encourage Contractors and their Sub-Contractors to consider environmental impacts when making purchases.
- Comply with all environmental legislation that relates to the Company.
- Provide training to raise awareness of environmental aspects and issues and ensure staff and contractors are working towards company objectives.

## Environmental Objectives 2013/14

- Ensure no major environmental breaches occur
- To monitor and record data on environmental impacts to strive for continued improvement in environmental management against set benchmarks.
- To record 100% of minor security and environmental events as well as opportunities for business improvement that occur and review these at the management review meetings as scheduled.
