SourceSmart^{TM} Farnborough

Location

SourceSmart^{TM} Redhill is located just 20 miles south of Central London.

Regular (each 15 minutes) train journeys from Redhill station (just 1 mile from the facility) to London Victoria or London Bridge take roughly 30 minutes.

For road access, the site is located via Junction 8 of the M25 or from the A23 from the M23.

About SourceSmartTM Redhill

SOURCE is Digital Realty's European Partner enabling Customers

access from one colocation rack to dedicated private suite environments.

The backbone of the site's power architecture is a series of UPS modules

arrayed in a fully redundant 2N configuration with diesel generators and

chillers delivered as N+1 redundancy.

Located within Digital Realty's Tier 3+ facility in Redhill, SOURCE's 1 mega-watt facility benefits from ISO 9001 and 27001 accreditation and boasts 100% uptime record.

We're here to help you

Our experienced data centre consultants have over 20 years of industry experience and knowledge.

We will help you identify and implement all of your data centre and networking requirements, from initial planning, through to execution, migration and installation.

We will enable you to build comprehensive and efficient hosting solutions without committing to huge capital outlay, specialist resources or over-spending.
